DEBRAJ ROY COLLEGE

Golaghat, Assam- 785621

ESTD : 1949

From the Desk of the Principal

Since its inception, Debraj Roy College has been imparting knowledge and education with a great missionary zeal for inculcating scientific temperament and progressive wisdom among learners and communities of the Golaghat region of Assam. The college was selected as “College with Potential for Excellence” (CPE) by the UGC for two successive terms during the 12th plan period, in the years 2010 and 2014 respectively. NAAC had accredited the college with ‘A’ grade in the year of 2011 in due acknowledgement of its exemplary academic accomplishments in sustaining a propitious teaching-learning environment against the backdrop of a subaltern society of the region.

The New Education Policy of the Department of HRD, Government of India envisions a revisionist approach towards the required commitment and perseverance of the academia at large for inducing an utilitarian input to the teaching-learning process in higher educational institutions. I am happy to let you know that the present ‘Newsletter’ represents a conspicuous account of our preparedness for coping with all the challenges and opportunities to be engendered by the emerging academic environment of the country.

Dr. Jayanta Barukial

Editorial

The publication of the Annual Newsletter is a regular practice at Debraj Roy College, Golaghat. As we bring out this volume, higher education in Assam and the country at large is passing through a crucial period of transformation. This transformation is particularly visible in the steps taken by the authorities and the regulatory bodies to implement the National Education Policy, 2020. Catering to the intellectual appetite of the population in general and enriching the young minds of the region for more than seven decades now, the college is striving to meet the demands of the changing ways in which higher education is perceived today. It is imperative on an institution like ours to keep track of the engagements such as academic research, activities comprising social responsibility, and teaching-learning process carried out formally within the institutional boundary since they create an inevitable interface with the pertinent questions related to the development of relevant life skills, critical aptitude, scientific temperament, and employability of the academic communities. The present volume is an honest attempt to highlight and document the academic, intellectual and the recreational health of the institution.

We, at the editorial board, sincerely extend our gratitude to Dr. Jayanta Barukial, the present principal of the college, the HoDs of all the departments, the faculty-in-charge of different centres and cells for their untiring support and cooperation in bringing out this volume. We are also immensely thankful to Lipi Offset, Jorhat for their enthusiastic services. Lastly, we encourage the readers of this volume to offer their constructive feedback for betterment of this publication in the future.
